Project Name	Smart Lender – Loan Prediction System
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A loan applicant seeking financial assistance.	Check my loan eligibility quickly and accurately.	I am unsure whether I meet the bank's approval criteria	The loan approval process depends on multiple financial and personal factors.	Hopeful about getting the loan, but anxious about rejection.
