Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS ☐ Will my loan be approved? ☐ I want a quick result.	THINKS • Am I eligible? • Is my income enough? • Will the bank approve?
PERSONA NAME <i>Loan Applicant</i>	
DOES ☐ Applies for a loan. ☐ Enters personal details. ☐ Checks the result.	FEELS ☐ Hopeful. ☐ Worried. ☐ Happy if approved.
