

Coding & Solution

Date	15 March 2026
Team ID	xxxxxx
Project Name	Smart Lender – Loan Prediction System
Maximum Marks	5 Marks

Coding & Solution

This section evaluates the quality and completeness of your implemented code and the overall solution. Your submission should demonstrate working functionality, clean code practices, and alignment with your defined requirements.

Instructions:

1. Ensure your code is well-structured, commented, and follows best practices for your chosen technology stack.
2. The solution should address the core problem statement and implement the key functional requirements.
3. Include all source files, configuration files, and setup instructions needed to run the application.
4. Attach or link to your code repository (e.g., GitHub) in the table below.

Solution Summary

Field	Details
Repository Link / URL	https://github.com/kusuma1227/Smart-Lender
Programming Language(s)	Python, HTML, CSS, JavaScript
Framework(s) Used	Flask, Scikit-learn
Key Features Implemented	• Loan Eligibility Prediction using Machine Learning • User-friendly Web Interface

	• Data Preprocessing • Multiple ML Models (Decision Tree, Random Forest, KNN, XGBoost) • Real-time Prediction using Flask
Pending / Incomplete Features	User Authentication, Database Integration, Cloud Deployment
Setup / Run Instructions	1. Clone the repository. 2. Install dependencies using pip install -r requirements.txt. 3. Run python app.py. 4. Open the application in a web browser.

Code Quality Checklist

S.No	Criteria	Status (Yes / No)
1	Code is modular and organized into functions / classes	Yes
2	Meaningful variable and function names are used	Yes
3	Code includes comments / documentation where necessary	Yes
4	Error handling is implemented for critical operations	Partial
5	The application runs without critical errors	Yes
6	Code is committed to a version control repository	Yes

Additional Notes / Comments:

The Smart Lender system uses Machine Learning to predict loan eligibility. The project is modular, user-friendly, and managed using GitHub for version control.
